Project Proposal

Recruitee (Job Portal)

Project Title: (Max 3 lines)	**Recruitee** **- Job Portal -**
Detail of Project Members: (Names of Candidates, Registration No, Email ID, Cell# of group leader) (min. **2** & max. **5** members)	**SP20-BSE-069** OSSAMA MEHMOOD (**GROUP LEADER**) - **CELL NO:** 03345463367 - **EMAIL ID:** OSSAMAMEHMOOD 110@GMAIL.COM **SP20-BSE-047** HAMZA ALTAF **SP20-BSE-051** TALHA NAEEM BUTT **SP20-BSE-081** ZAEEM TAHIR **SP20-BSE-091** SAAD ZIA
Supervised By:	**Samra Siddiqui**

Which real world Problem shall be solved by this project?	**Recruitee** can help solve the problem of finding a job that is a good fit for the individual. **Recruitee** (Job Portal) help employers and job seekers connect with each other to find the best possible match. Additionally, these job portals provide a platform for employers to post job openings and for job seekers to apply for these positions. **Additional Real-World Feature** We would like to add up additional feature in our project. Implement according timeframe we had. Some of them are unique features. • Search a Job Algorithm • Dedicated Chat Bot • Reapply for a Job • Uploading Resume • Login Functionalities • Register Functionalities • Contact Recruitee • Email Notification • Job Alert
Project Description (What, How and Objectives):	**- Recruitee -**

(Max 25 lines)	Find your **dream job** here **Various career opportunities** await you. Find the **right career** and **connect** with **companies** anytime, anywhere. **Job Search** • Search a Job • View a Jobs • Apply **Login Functionalities** **Register Functionalities** **Looking for a job** Show your abilities and qualities as a talent in an easy way. So that recruiters can see if you can be one of the candidates for a job interview. - *Register as Seeker* **Looking for a candidate** Recruiting candidates is indeed a challenge. We therefore understand that a job recruiter can require multiple job recruitment platforms. - *Register as Company* **Job Seekers** Find and get better job opportunities according to skills and location. • Applicant on Job • Search Jobs as candidate • Update his/her profile • Upload Resume **Company**

	Post job advertisements to connect with the most potential job seekers.
	• View applicant on Jobs
	• Post Job as company
	• Edit Job Requirements or Cancel
	• Accept/Reject Candidate

Project Streams (Encircle one stream)	1. **Web-based** 2. Mobile Apps 3. Hardware-based 4. Database Applications 5. Game-based 6. Other Applications

Development Tools: - **Tools:** Visual Studio (Implementation using a Laravel Framework) - **DBMS:** MySQL database) - **Platform: Across Platforms** (e.g., Windows, Linux)	Tool(s): Visual Studio (Implementation using a Laravel Framework) and Other Web Technologies DBMS: MySQL Database Platform: Platform: Across Platforms (e.g., Windows, Linux)
Evaluation Criteria for 6ᵗʰ Semester: (Evaluation to be expected in week# 14 - 16)	1. SRS (Functional & Non-functional requirements, Use case diagram, Sequence diagram, Class diagram, Entity relationship diagram / Detailed hardware configuration) 2. Implementation of one of the major use cases (>=20% FYP work) 3. Interface (even if one screen) with some functionality / Initial hardware configuration with some functionality
Date of Submission:	**Thursday** 20 October 2022
